NOTE FROM THE LIBRARIAN.....	16

A LIBRARY is defined as "a collection of books". Our "collection" numbers about 3,000 volumes - this would certainly be a hodge-podge if there were no guide for its use. Our guide is the card catalog in which every book is represented by both an author and a title card and a "catalog number".

Unfortunately, at present we are operating with two completely different catalog systems -- the Intellofax system and the Library of Congress system. Eventually, (no target date has been set) all of our books will have Library of Congress (LC) numbers and cards -- which means we will have not only a complete file of our books by author and title, but also by subject and area. At present -- about 500 of our books have been recataloged, consequently the "Subject" and "Area" portion of the card catalog is extremely inadequate for complete and ready reference.

THE CARD CATALOG

Cards having a letter(s) as the first line of the catalog number, without an accompanying slash and number are filed in the LC collection:

DS
780 (LC Catalog Number)
.W2

Cards with a letter and number as the first line of the catalog number are filed in the Intellofax collection:

3M/6
132 (Intellofax Catalog Number)
.S8

(As indicated on the preceeding page the LC collection is carded by author, title, subject, and area.)

CHARGE-OUT CARDS

In order to keep a record of charge-outs we have two types of cards - a pink one for TDY personnel, a white one for STAFF. It is requested that you fill out two cards for each book in order that one may be filed by name (or badge number in the case of TDY) and the other by book title. This enables the Librarian to check not only on who has a certain book, but what books an individual may have checked out.

REFERENCE books are not to be taken out of the Library - exceptions will be made if you wish to use a Reference book for a few hours, but ordinarily they should be available for use in the Library at all times.

PLEASE -

don't remove a book from the Library without filling out a charge-out card!!

- CURRENT INTELLIGENCE DIGEST
(Daily/Weekly Summary)
- BI-WEEKLY PROPAGANDA GUIDANCE

- PRESS COMMENTS (Unclassified)

THE BOOK COPIER

It is often desirable to have a copy of an article from a periodical...or perhaps a page from a book...or maybe you need a transparency (same size as copy) for the Vu-Graph "in a hurry".....the LIBRARY is equipped to offer this service. We have the Apeco Book Copier which will give long lasting copies (photo-weight paper) of material that cannot conveniently be reproduced on the Thermofax machine and is, perhaps, too lengthy to be typed.

WHEN ALL ELSE FAILS.....DON'T FORGET.....

"SOMEONE UP THERE LIKES US...."

.....at least the personnel in Headquarters Training Library are always most cooperative about securing information, books, and periodicals we either do not have or are unable to "track" down. When our resources do not contain the information we seek, the facilities of Training Library are just a telephone call away.

....through the Training Library we also get information and borrow material from the Main Headquarters Library and (to a certain extent) Library of Congress...

SO -

...don't despair -- get all of YOUR information together -- give US a little "lead" time -- and we'll try our best to secure the material you need.

The LIBRARY has on hand a supply of miscellaneous maps, we do not claim this file is either comprehensive or unlimited. If you need maps of a specific area or scale we can secure them for you. Usually this service takes about four days - however, if the Headquarters Map Library does not have the map in their files it is necessary to wait for a special order. The length of time for a special order depends on the type of map ordered and the source.

Headquarters Map Library always gives excellent and speedy service....but "lead" time is always appreciated on any order.

The LIBRARY magazines are for your information and enjoyment. If you wish to borrow a magazine OTHER THAN A CURRENT COPY (current magazines are not to be removed from the Library), please fill out a charge-out slip. It is our desire to keep a file of magazines for at least a year, therefore, back issues of many of the magazines are not filed in the book stacks -- if you have a specific request please ask the Librarian to secure the magazine for you.

NOTE: We have an excellent file of National Geographic Magazines -- semi-complete from 1935.

BE SURE TO USE

READERS' GUIDE TO PERIODICAL LITERATURE

THE LANGUAGE LAB

The room adjoining the Library (#26) is the Language Lab. We have tapes for twenty-eight languages. (Tapes are for use in the Language Lab only.) Tapes for additional languages are available on request. At present we do not have a complete file of texts for each group of tapes, however, if the text you need is missing every effort will be made to secure a copy.

Hours for the Language Lab are the same as LIBRARY hours -- 0800-1630, Monday thru Friday. The key is available at the Guard Gate when the Library is not open.

...STRING TOO SHORT TO USE

or

WHAT SHALL I DO WITH THIS??

There are many leaflets, small charts, articles, catalogs, etc., that come to the desk of the Librarian. It is always a problem deciding what to do with them - these are usually filed by title or, in the case of information about a specific city or country, by area. This file contains such diverse items as "tourist" information on the Kentucky Lake region, "Soviet Tactics in Artillery", and the "Small Bird Doctrine".

Other "odd" - or perhaps unusual - publications kept in the vault are: "The Red Interpreter", Moscow Telephone Directory, Russian Railroad Timetable,.....

SO -

whatever you are looking for -
don't give up until we check
THE MISCELLANEOUS FILE.
